#### III. Committee Education - WorkLink Workforce Development Board

Lisa Long, ES Regional Area Director, Region I at SC Department of Employment and Workforce, delivered a presentation on Second Chances.

Under the direction of Governor Nikki Haley's office, S.C. Department of Corrections (SCDC) and the S.C. Department of Employment and Workforce (DEW) created the Second Chance initiative to help returning citizens learn job skills and understand how to successfully search for a job.

With this program's support, returning citizens gain confidence, purpose, and direction, which fosters their successful employment and reduces the recidivism rate.

#### **Features of the Second Chance Program**

- DEW partners with SCDC Manning by providing a full-time DEW employee to teach participants employment and soft skills in a classroom setting. Participants register for SC Works, craft résumés, and participate in mock interviews.
- DEW partners with SCDC to offer workshops on SC Works services to those who are about to be released.
- DEW assists returning citizens in local SC Works centers by providing Federal Bonding vouchers, assistance with résumés, and job-searches.
- DEW staff collaborates with employers to promote WOTC and encourage the hiring of returning citizens.
- Second Chance Month: In the month of April, DEW partners with organizations to host community job fairs which feature employers open to hiring returning citizens.

Ms. Windy Graham, a WorkLink Board staff member, referenced the reports contained within the meeting packet.

Beginning on page 4, Ms. Graham delivered a comprehensive overview of the Community Profile report, published by the South Carolina Department of Employment and Workforce in December 2024.

Ms. William Hunter, OneStop Manager, provided a comprehensive update on the operations and activities of the SC Works Centers.

WorkLink's unemployment rate is currently 4.3%, whereas the national unemployment rate for individuals with disabilities remains significantly higher at 8.5%.

Our next meeting is May 13, 2025.

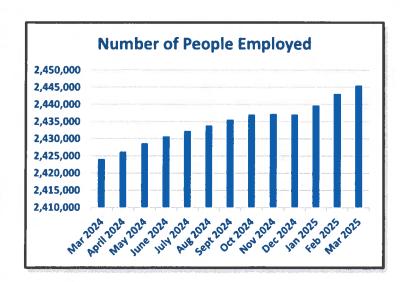

For Release April 18, 2025

#### **South Carolina's Employment Situation: March 2025**

#### HOUSEHOLD SURVEY: LOCAL AREA UNEMPLOYMENT STATISTICS

Nationally, there is a monthly Current Population Survey of about 60,000 households conducted by the Census Bureau for the Bureau of Labor Statistics (BLS) to determine employment status of the civilian population. This information, along with other inputs, are used by DEW to operate the Local Area Unemployment Statistics program, which estimates the number of individuals employed and those not employed, but actively seeking employment for statewide and a variety of substate geographies.

#### **EMPLOYMENT:**

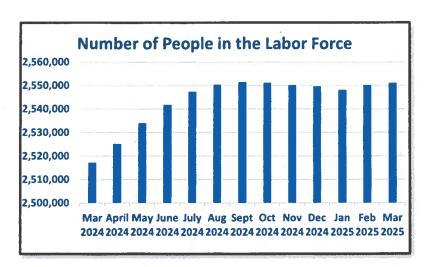

- The seasonally adjusted number of South Carolina workers increased to 2,445,419.
- That is an increase of 2,369 people over the February 2025 estimate.
- That is an increase of 21,332 people over the March 2024 estimate.

#### **LABOR FORCE:**

- The state's estimated labor force (people working plus unemployed people looking for work) increased to 2,551,076 while the labor force participation rate declined to 57.5 percent.
- That is an increase of 914 people over the February 2025 estimate.
- That is an increase of 33,782 individuals over the March 2024 estimate.

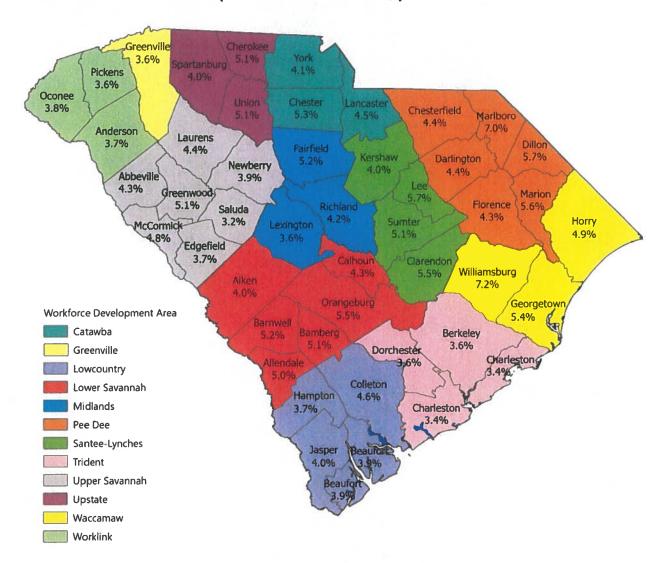

#### **UNEMPLOYED:**

- The estimate of unemployed people decreased to 105.657.
- That is a decrease of 1,455 people from the February estimate and an increase of 12,450 from the March 2024 estimate.
- The state's seasonally adjusted unemployment rate decreased from 4.2 percent to 4.1 percent. The national unemployment rate increased to 4.2 percent, according to the Current Population survey.

Seasonally Adjusted: Seasonal adjustment removes the effects of events that follow a regular pattern each year (i.e. tourist-related hiring and school closings in the summer). These adjustments make it easier to observe the cyclical and other nonseasonal movements in data over time.
